## OPCSMH 2025-2026 Webinar Series

# **BEYOND THE SYLLABUS: HOW FACULTY CAN SUPPORT STUDENT MENTAL HEALTH IN LARGE CLASSES AND BEYOND**

Faculty play a critical role in student well-being – yet supporting mental health can feel especially challenging in large, high-enrollment courses. This webinar brings together faculty and campus partners to share realistic, research-informed strategies for promoting mental health and fostering connection at scale. Panelists will explore how thoughtful course design can reduce distress and help faculty identify and respond to early signs of student concern – all while maintaining healthy boundaries and academic integrity. Join us for practical guidance on how institutions of all sizes can embed student mental health support into the classroom experience in scalable, sustainable ways.
